

BRITAIN'S NAVY HER INSURANCE

Premier As
important s
nati

WITH OTHER POWER

**Mr. Borden Will Propose Gift
of Three Dreadnoughts.**

London, July 25.—Speaking in the House of Commons today on the estimates for the committee on Imperial Defence, Right Hon. H. H. Asquith, prime minister, made an important statement. Reviewing the composition and the work of the

he said, that the committee had had upon at least two occasions, the opportunity for showing the elasticity of its composition. Last year they had the pleasure of summoning the premiers of all the self-governing Dominions to their meeting; and he did not think there ever was a more momentous occasion. The second occasion was when the Right Hon. R. L. Borden, premier of Canada, and

They would attend again next week, and he hoped they would arrive at some satisfactory agreement.

Britain's Friendships.

There had been since the government came into power no change in policy of any sort or kind; he said that with the greatest emphasis. He declared international relations were being conducted now as in the past.

What are they? We cultivated with great and growing cordiality, on both sides, our special international friendships. They had stood the test of time, the test of bad as well as of good weather. He did not hesitate to say that many questions which, had they arisen ten or fifteen years ago, might have been the cause

"Yet," he said, "remember what is sometimes forgotten by those criticizing our foreign policy, namely, that those powers with which these special relations exist are powers which are stronger than all the powers of the world."

contact with infinite possibilities of friction and possibly of animosity if the relations were not happily what they are between ourselves and those great powers with which in Asia, in Africa and elsewhere 'we and our subjects are constantly brought into close relationship. The history of the past eight years is a history of mutual understanding, freedom from

I say that of the powers between whom and ourselves intimate relations exist, I must admit that our friendship with them is not in any sense exclusive (cheers). I say deliberately that we have no cause, so far as I know, no occasion for quarreling with any country in any part of the world." (Cheers.)

that he viewed without the least suspicion or dissatisfaction, and with more than equanimity, the special conversation and interchanges of views, such, for instance, as between Russia and Germany. Our relations with the great German empire were relations of good will. Mr. Haldane, the lord chancellor, had paid a visit to Berlin earlier in the year and had

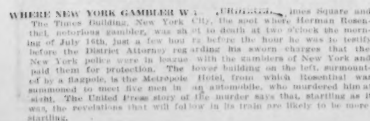

changes. These had been continued since, in a spirit of frankness and friendship on both sides, and we have now in London a distinguished diplomatist whom the German Emperor had sent to our country. For more than one reason the greatest of British interests remained that of the peace of the world. If, unhappily as was the case, there was in the

ments, both naval and military, there was no power in the world which did not know perfectly well that, so far as we were concerned, we had no aggressive purpose (cheers). We owed no homage, we had no inclination or temptation to extend in any way the range of our responsibility.

National Insurance.

world-wide, and if we are compelled to divert from other purposes more productive, more advantageous mankind, the sum which we are now expending for the maintenance of our supremacy at sea, I am speaking what every one in this house knows to be absolutely and literally a fact when I say that the expenditure is regarded by us simply as an insurance.

1

BUSINESS MEN WERE FAVOURABLE TO WEATHER YESTERDAY

Third Day of Trip Opens With
Bright Sunshine, Adds to
Enthusiasm.

Bulletin Special.
Wednesday, July 25.—Fine weather greeted the Edmonton business men on the third day, while they covered the route of the Laramie branch line from Cranston through to Jasper, ending the day at Wetaskiwin, where an hour was spent before leaving for Provost, to begin a further day's work.

The bright sunshine of the forenoon added to the general enthusiasm of the welcome that was accorded at each town where the special train stopped.

Winter Town of West.
The greeting of Cranston, the winter town of the west, opened the day pleasantly. The next stop was at Cranston, last year the terminus of the branch, which now is regularly operated as far as Cranston, where it meets the main line.

After lunch at Cranston, the train went on to Cranston, where it is not as long as last year, but the natural resources, including the limestone, which has been used for a number of buildings, and gas, which has been used in some wells, give citizens nothing but the best of all.

Stellar Extends Hearty Welcome.
Stellar, Graham, and others were the next stopping places. Then came the station at Cranston, where the star was all too short for the inspection which the visitors visited to make. Mr. MacFarlane, M. L. B., M.P.P., and others did the honors by the visitors. Stellar people exhibit with a new deal of pride, the excellent brand of cattle, the Panama sheep, manufactured in the same way as the cattle. The output is considerably increasing.

Ernie and Alex came next and Laramie was reached at six o'clock. This town was covered by the train on the previous day, so that a short stop was made there. Wetaskiwin was the last stopping place of the night. Publicity Commissioner Gillie had the receiving committee and very pleasant hour was spent at the station. It is the fact that the train was two hours and a half late in arriving, not reaching the station till half past nine.

Band Out at Wetaskiwin.
When the special pulled in the band was playing in the band stand and the city was brightly illuminated. Mr. Gillie, V. C. Pritchard and others met the visitors at the station and showed them around the city.

Rene Laramie had the information to meet the train at Cranston, where the train pulled out for its night run to Provost.

STATES WITHDRAWALS FROM.
Last of Foreign Guard Leaves Yokohama—There Since 1859.

Tokyo, July 25.—The contingent of seven marine guards who have been at Yokohama since the naval hospital at Yokohama, and who were recently withdrawn and sent to the United States under charter for the United States, were met at the Yokohama station by the contingent of foreign troops which have been in Japan since 1859, when Yokohama was opened to foreign trade. Their leaving thus was his last day.

Canada (Cass) Man Married.
Toronto, July 25.—Elizabeth, the daughter of John Cass, of Blackwater, was married to Arthur James McCulloch, M.A. of Canada, B.A. of the University of Toronto, and M.A. of the University of Toronto.

RT HON JOSEPH CHAMBERLAIN WHO PULLED OFF BIG COUP AGAINST ROBERTSON GOVERNMENT

RT HON JOSEPH CHAMBERLAIN FOLLOWING IN HIS FATHER'S FOOTSTEPS

LORD ROBERT CECIL, A PRESENT DAY CONSPIRATOR.

LORD ROSEBURY, WHO WAS NOT BORN IN THE HOUSE WHEN HIS GOVERNMENT WAS BEATEN

PASTER OF ELLIOTT CHIEF, LATERAL WHITE ON GUARD AGAINST RUBY STRATTON

SOME PLANNERS AND VICTIMS OF POLITICAL STRATEGY—In recently published story of rebellions as a reporter in the British House of Commons, Mr. T. P. O'Connor, the great Nationalist, told how the British government of 1881 was defeated and their members hidden in secret houses and brought them into the House of Commons when a division was forced. The pictures show the more prominent men who figured in the episode.

CAVE-IN OF SEWER TRENCH IN QUEBEC ENTOMBS WORKMEN

Quebec, July 25.—A desperate rescue was being made at Quebec, where a cave-in of a sewer trench, twenty feet deep at the new pipe line, had entombed three men. The men were buried by a cave-in of the trench, which was twenty feet deep at the new pipe line, had entombed three men.

The work of rescue was energetically continued and at a late hour tonight four men were still buried, of whom only one could be rescued, and the other three are dead. The victims, Italians and French, were in the trench of the sewer line, which was twenty feet deep at the new pipe line, had entombed three men.

The work of rescue was energetically continued and at a late hour tonight four men were still buried, of whom only one could be rescued, and the other three are dead.

HALF RAINBOW'S CREW RETURNING TO OLD SOD

One-Half of Canada's Navy Will
Out of Commission Until Next Year
Returns to Service of Willing Blue-jackets.

Vancouver, July 25.—In a week or two the cruiser Rainbow will be decommissioned, and the men who served on her will return to England, leaving the cruiser half manned.

The contingent for England will proceed to Halifax and there take the ship, which it is said, will convey them to England and where they will receive extensive repairs. An effort will be made by the Canadian authorities to induce more blue-jackets from the royal navy to volunteer for the Canadian service and if these men are secured for the Rainbow they will cross the Atlantic on the ship.

NO REPRESENTATION; NO CONTRIBUTION
London, July 25.—Replying to a deputation from the Maritime League yesterday Lord J. J. Russell declared that the question of the protection of trade routes in the time of war to the convenience of merchant ships into cruisers had not been overlooked by the Canadian government, and further he was sure he revealed no confidence in the fact that the British navy had been the subject of negotiations with the British admiralty.

Speaking of his mission he said: "I think there is a very strong feeling among the people and members of the British navy, to which we realize our existence as a Dominion, in a very large measure, depends. At the present time it would be premature and improper for me to say what the result of our visit here has been or may be; no declaration on this subject will be made until after our return to Canada to discuss these matters with our colleagues and lay before them the result of our interview with the admiralty."

Referring to a permanent naval policy, Mr. Russell said that if the Dominion navy must be developed, it must be represented in the council. The feeling in Canada is that there can be no partnership without a voice in the management of affairs.

SIXTY-FIVE RURAL MUNICIPALITIES ARE NOW IN THE MAKING

Province Is Rapidly Organizing
Under New Rural Municipalities Act.

EIGHT MUNICIPALITIES
HAVE VOTED IN FAVOR

Interest in Eastern and Central
Parts of Province Most
Pronounced.

The Hon. Charles Stewart, Minister of Municipalities, is continuing his mission in various parts of the Province in connection with the new Rural Municipalities Act. Probably no act has ever had such constant and untiring workers in its behalf as this, which are being held almost nightly and are being largely attended by farmers who take an interested and intelligent part in the discussion of the act and its provisions.

The act was most recently taken up by the districts in the eastern and central portions of the Province. In Mr. Stewart's own constituency the formation of rural municipalities was discussed much time to the satisfaction of the act.

THE NEW RURAL MUNICIPALITIES ACT.
At the present time there are no less than sixty-five municipalities in the making, and the act is being put into effect in the province.

At the present time there are no less than sixty-five municipalities in the making, and the act is being put into effect in the province. The act is being put into effect in the province.

EDMONTON DISTRICT.
Districts around Edmonton are showing a good deal of interest in the act, and permission to take a vote has been given in Sturgeon, Onyon, Bonanza, Inverclyde, Lac La Poudre and Pithers. Interest is also being aroused in Edmonton.

In the early part of August Mr. Stewart will be in the city to address meetings in several districts. John MacFarlane, minister, and C. W. MacFarlane, of the government offices, are also addressing meetings.

WOULD WIDE OUT RAILWAY'S SURVIVORS
Chief of the Pennsylvania Gives Evidence Before the Arbitration Commission.

New York, July 25.—W. W. Atterbury, vice-president of the Pennsylvania railway, was the principal witness before the arbitration commission sitting at Manhattan Beach to pass upon the demands of the locomotive engineers of all eastern railways for increased pay.

Mr. Atterbury said that the Pennsylvania method of arriving at a basis for the pay of employees has been a constant endeavor to pay a fair rate for a fair day's work.

Referring to the hours of work, rates run and the average pay for engineers which last year he said was equal to that of a competent railwayman. To grant the demands now made by the engineers would, the witness said, add to the operating expenses of the

Reduced the sum of \$911,550 a year and if proportionate income are made in the pay of all other employees the government would be declared, would wipe out the surplus of the Pennsylvania in one year.

AGRICULTURAL EXPERT TO VISIT ALBERTA SOON

C. James, Special Commissioner, Coming to Alberta to Study Question of Agricultural Development in the Province and Province for Developing Agriculture.

Ottawa, July 25.—C. James, special agriculture commissioner, who is to report on a plan of co-operation between the province and Dominion for the encouragement of agriculture, will leave August first for a western trip. Mr. James has already made one western trip, visiting British Columbia, Manitoba, Saskatchewan and Alberta. This time he will visit Alberta and Saskatchewan and probably hold a further conference with Hon. Geo. Lawrence, minister of agriculture.

Mr. James has already taken up the question with most of the eastern provincial governments and he found a strong sympathetic spirit for a more comprehensive plan for developing Canadian agricultural resources.

SWINDLE PREVENTED BY WOMAN'S SHERWATNESS

Niagara Falls, Ont., July 25.—A clever scheme to collect from \$5 to \$10 from each of a hundred women from this city and Niagara Falls, N. Y., was today stopped by Provincial Police Chief Maine. The scheme was exposed by a Buffalo woman whose name is for the present withheld. Several days ago a man registered at the Hotel Clifton here as Harold Boyd.

He advertised for a travelling companion for a daughter in the local and United States papers and received many replies. Yesterday the Buffalo woman appeared and talked with Postmaster Phenix, who summoned Chief Maine. The latter stationed a man at the post office and Boyd was taken into custody when he tried to get his mail. Some 100 letters were retained by the police. Boyd admitted that he has no daughter. His game was to obtain money from applicants as a deposit of good faith and then skip out. He admitted that his name was J. C. Blair, of Los Angeles.

The police say that he has operated in Buffalo. Chief Maine ordered the arrest of the city and contacted the mail.

TWO HISTORIC STONES GO INTO THE ARCHIVES

Ottawa, July 25.—The two historic stones commemorating the building of Parliament and Rogers bridge, which for three centuries of a century have spanned the Rideau canal in the centre of Ottawa, are being removed today to the archives under the supervision of Mr. David Ewart, Dominion architect. The bridge, which were built by British engineers under the supervision of Colonel By, are being removed in connection with the superstructure of the public space facing the Chateau Laurier. The memorial stone will remain in the care of Dr. Doughty until the proposed statue in Colonel By shall be erected. They will then be placed in the base of the monument. The inscription on these stones are still quite visible, the stone testing the east of arm of the British Royal Engineers and the other the words "Colonel John By, Commanding the Engineers."
